

Blog Module for PrestaShop – Engage Your Audience with Custom Content

The Blog Module for PrestaShop allows you to easily create and manage blog posts that engage and inform your customers. With a user-friendly admin interface, you can publish rich content with images, titles, subtitles, and descriptions to promote your products, services, and store updates.

This module offers full flexibility in creating dynamic blog posts that can enhance your site's SEO, boost customer engagement, and create a platform for sharing news, tutorials, and product highlights.

Module installation

Follow these methods:

1. Using File Structure

- 01.** Unzip (decompress) the module archive file
- 02.** Using your FTP software
- 03.** Place the folder in your PrestaShop /modules folder
- 04.** Connect to the BackOffice of your shop
- 05.** Go to Back Office >> Modules.

06. Locate the new module in the list, scrolling down if necessary.

07. In the row for the new module, click Install.

08. Locate the module again. If necessary, click >> Configure.

09. Once configuration is complete, be sure to test the module immediately to confirm that it functions as planned.

2. Using Back Office

01. Connect to the BackOffice of your shop

02. Go to Back Office >> Modules.

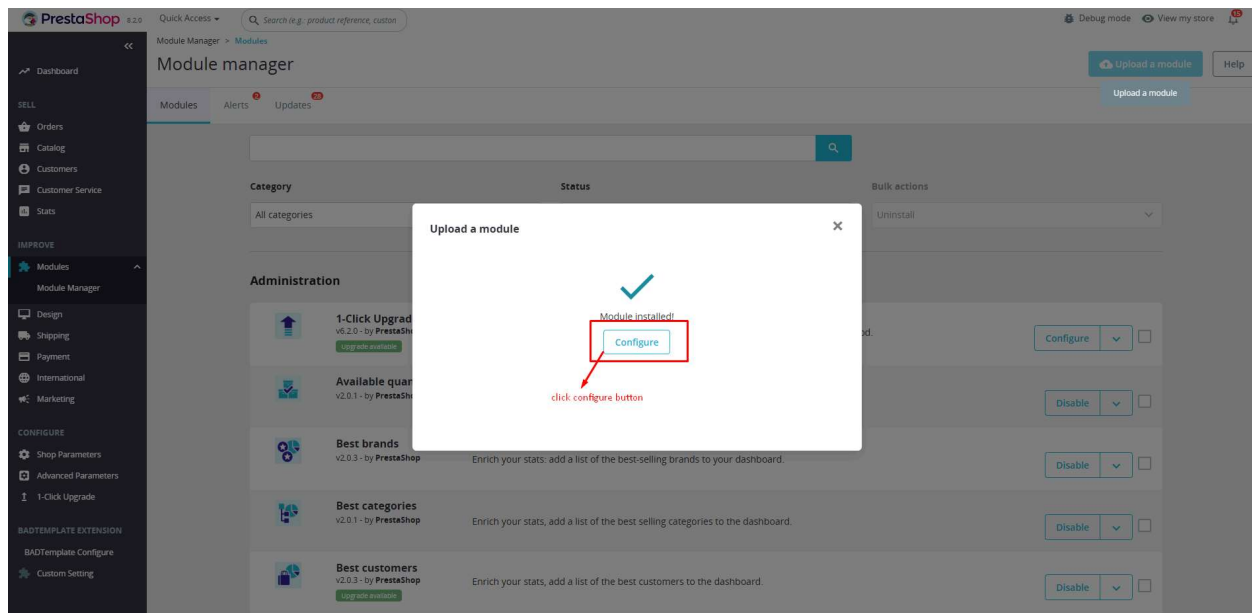

03. Click Upload Module Button

04. Add Module Zip File

05. Click Module Configure Button

- 06.** Once configuration is complete, be sure to test the module immediately to confirm that it functions as planned
